MONDAY, August 25-6 P. M. THE POREIGN MARKET.

Owing to a defect in the land lines no European dvices were received to-day. The event has not een without its influences in the general market. Trade has been checked, new operations prevented, and there is a general indisposition on the part of bankers whose relationships extend abroad to undertake business. Hence we are without the ansual reflex of the foreign condition. THE MONEY MARKET.

During the morning money was easy at 4 a 5 per cent. Subsequently it hardened to 6 per cent, but without much business. Time loans in currency are quoted at 6 a 7 per cent for 30 days, 7 per cent for 60 days, 7 per cent to gold interest for 90 days, and 9 per cent for the balance of the year. Gold days; 1 a 1% for 60 daya; 1% a 1% for 90 days; 1% m 1% for 4 months and all the year, and 1% a 1% for 6 months. The discount market is quiet at 6% a s per cent. Foreign exchange was dull and noni-maily steady at 107% a 107% for bankers' 60 days sterling, and 108% a 108% for sight.

GOLD 116% A 115%. The market in gold showed but slight vibration, the prices ranging between 116% a 115%, with the bulk of the business done at the higher figures. The market appeared natural and unaffected by artificial influences. The fluctuations are as for

GOVERNMENT BONDS.

These divide the honors with our old railread bonds. Unfortunately, however, there are not amough to supply the demand by home and foreign bankers, and we are content simply to quote the value which they command:-United States cur-bency sixes, 113% a 113%; do. do., 1881, registered, #17% a 117%; do. do. do., coupon, 119% a 120; do. THE CHICASO AND ROCK ISLAND RAHLROAD.

A correspondent who has evidently bestowed no little study on bookkeeping thus analyzes the questicular whether the stock of the Chicago, Rock Island

12 D & H Canal Co. 1900 West United to D. 1900 West Uni

and Pacific Railroad is cheap at its present market That it is so considered by many of our investors in railroad securities, and by money ienders is proven by the steady absorption of over \$11,000,000 of new stock in the past six years, and by the favor shown it as a collateral by all our moneyed institutions. But why does it not follow the example of illinois Central, Chicago and Alton and other stocks?—drop out of the circle of bulls and bears and find rest in the strong boxes of our retired capitalists. Are our rich men who are seeking investments fully advised and alive to the progress this property has made within the past few years? If not, we invite their attention to the figures below, showing, as they do, the rapid strides which have been made towards capital and power by this company. In making up the table given below (with the exception of 1865, taken as a start, being ten years back), we only cite those years which appear the most important, the omitted ones since 1856 showing the same steady progress toward the result, only less marked, in some of the items.

Gross Per Total Capitat. \*August 2, 1996, consolidated with Mississipi and Missouri Railroad and became the Chicago, Rock Island and Peoria Railroad. The old company (Chicago and Rock Island) divided their surplus by issue of \$2,600,000 of Chicago, Rock Island and Peoria stock to their stock-holders at about twanty per cent.

† Issued and sold on the market \$4,900,000 new stock for the purpose of completing the road to the Missouri River, to connect with the Umon Pacific.

‡ June 7, 1889, road was opened for business to the Missouri River.

t June 7, 1688, road was opened for buliness to the acouri street.

Thus, it may be seen at a giance, that, while the modest Chicago and Rock Island of 1866-66, with 228 miles and a capital of \$7,948,600, earned \$3,154,233, the Chicago, Rock Island and Peoria of 1872-73, with 665 miles and a capital of \$33,988,133, earned \$6,657,050, showing a gain of 438 miles and a capital of \$20,040,000, earned \$3,502,817; or, in 1868, earned, per mile, \$13,834, and ratio to capital, 39 44-100 per cent; in 1873, earned, per mile, \$9,995, and ratio to capital, 10 1-5 per cent. It is proper to remark that the amount of stock actually issued at date of last report was only \$20,500,000, the company holding \$4,500,000, also that the earnings for 1873 was the largest ever reported.

also that the carrings for loss was the tagent reported.

If the correspondent, who says he is "a stock-holder," had been more careful in his examinations he could have discovered in other portions of the report at least a partial explanation of his "apparent dedict." We have no opinion of our own to express, but will endeavor, by the production of figures, to aid him in arriving at a satisfactory solution of the "query" he suggests.

THE STOCK MARKET.

The chief interest of the day has concentrated upon Pacific mail. It was given out that the price ing ones answered that the object was to invite purchase and then that the "bulis" would quietly retire to the company of the "bears," and in time unite with them to depress the stock. One thing is certain: until Pacific mail becomes something more than a shuttlecock between brokers; unless it has something more solid than a speculator's whim for its foundation; unless it can be followed in its upward or downward course by calcula-tions based upon official facts, it will conand those who may be deluded into its purchase or sale need ask either sympathy for or utter curses at their loss. As we have said before, dalliance with Pacific Mail can only result in a first class gamble. The prices of the day as recorded were 43 a 43% a 43% a 49% a 44 a 44%. Western Union occupied the next place, in point of activity, and advanced from 89% to 90%, closing, however, at 90. Lake Shore sold at 92% a 92% a 93 a 92%; Rock Island at 103% a 109 a 103%; Erie at 68% a 69% a 69%; C., C. and I. C. at 80% a 81%; St. Paul, common, at 51% a 50%, and Atlantic and Pacific, preferred, at 27% a 27. Some animation was exhibited in Union Pacific, which opened at 26%, touched 27, but closed at 26%. Ohio and Mississippi was steady at 39% a 39% a 39%. Hannibal and St. Joseph sold at 37%, Delaware and Lackawanna at 100%, Northwestern at 65, Wabash at 69% a 69%. The other changes were slight.

No. 5 NASSAU STREET, NEW YORK, August 25, 1873. The Chesapeake and Ohio Railroad, now completed and in regular operation between Atlantic tide-water at Bichmond and the unfalling navigation of the Western rivers at Huntington, is now carrying passengers and freights with great promptness and on favorable terms, between the coast cities and the chief trade centres at the West. Preights can be shipped via the Clyde Line of steamers from Boston, Providence and Phila-delphia, via the Old Dominion line of steamers from New York, and via the Chesapeake and Ohio Packets from Cincinnati, Louisville and St. Louis, de. Passengers can also take this route to or from the West, and enjoy the wonderful scenery of the Allechanies, the medicinal springs and mineral attractions of Virginia and West Virginia.

To enable the Company to perfect more rapidly its conjument, terminal facilities and deep-water connections with European steamship lines, and to accommo date the heavy coal and mineral traffic, together with the growing iron and miscellaneous, local and through business now pressing upon the line, we are selling, on behalf of the Company, a limited amount of their Seven Per Cent Gold Bonds, secured by mortgage liens on the whole valuable property at 90 and accrued interest; \$1,000 each, either conpon or registered, payable in gold coin, in New York city, principal and interest; interest January 1 and July L

will be during their stay. The company present numbers twenty-eight men, though the full comnumbers twenty-eight men, though the full command aggregates ninety-three, most of them young men of Californian birth and rearing. They carry their state characteristics so far that their uniforms—blue woollen, of zonave cut—are of material manufactured in the Golden State. They are commanded by Captain C. E. S. Macdenald, a Highland Scotchman, who served many years in the British army. They left San Francisco on the 12th instant, but stopped on the Plains for ten or twelve days buffale shooting. A mistake in the despatch prevented the Seventh regiment from sending an escort to receive them at the Erie depot.

a blindfold series of manceuvres, wherein they demonstrate the accuracy with which men may time their movements in the dark. The drill is indeed an original affair, being entirely outside of regulation. An exhibition will be given by them to-night at the Seventh Regiment Armory, before the Mayor, the officers of the First division and the press.

ROBINSON HALL SPIRITUALISTS. NEW YORE, August 25, 1873.

TO THE EDITOR OF THE HERALD:—
In your issue of the 19th inst. there appeared an editorial headed "Sunday Disgrace in the City." The article charges Spiritualism with being both a failure and a humbug, and that none but the vilest of either sex can be connected with them. Now, sir, I think it a well established fact that there are good and bad among all sects and communities.
We cannot prevent persons calling themselves
Spiritualists, Catholics or Israelites, no matter
what their character may be. Because you find unripe and rotten fruit it does not prove that none is good. Hence I think that you should be unripe and rotten fruit it does not prove that none is good. Hence I think that you should be willing to draw the line in this case as in others. It is not generally known that there are two classes of Spiritualists in this city and elsewhere. We will see. A little inquiry will discover the difference. There is an association holding regular mectings at Robinson Hall, in East Sixteenth street, called the Society of Progressive Spiritualists. This society is incorporated, has a charter, a constitute a board of trustees. The object of the society is to catabilish the fact that spirits of departed beings return and communicate with mortals. They hold this bellet, or religion, just as sacred as any sect do theirs, advocating it only from a high moral and pure standpoint, always willing and anxious to dethrone and discard anything to the contrary. There is another class who believe and advocate the mixing of the social question with all its connections, on the most radical platform. The last named class contribute little or nothing to the society and have no voice in the government—they simply attend the lectures, whice any one has a right to do by conforming to the regulations. It is not generally understood that the society propez is not responsible for the actions of the Comserence, but simply letting them he use of the hall for their afternoon meetings. In conclusion, let it be understood that the women Claffin and Woodhull have no connection whatever, in any way, with this society, and their theories and wild doctrines never were countenanced by any of its well wishers; and, furthermore, such ideas are considered size issues, and have no more right to be brought into spiritualism than any other creed or belief. Please publish this comminication for belief of all whom it may concern. J. S. C.
